

WORKSHOP GOU-OCEAN

*"Transdisciplinary approach to the study of hydrothermal systems
in the deep marine environment"*

April 27th, 2026

**CNR Bologna Territorial Research Area - Via P. Gobetti 101 -
room # 216**

Agenda

09:45 - 10:00	Welcome and Registration
10:00 - 10:15	Introduction to the Workshop <i>M.F. Loreto CNR-ISMAR Bologna (Italy)</i>
10:15 - 11:00	"Transdisciplinary Perspectives on Submarine Volcanism and Hydrothermal Systems in the Aegean Sea" <i>P. Nomikou National and Kapodistrian University of Athens (Greece) on-line presentation</i>
11:00 - 11:15	<i>Coffee Break</i>
11:15 - 12:00	"Geochemistry of fluids from submarine hydrothermal systems: insights from Kolumbo volcano (Aegean Sea)" <i>A. L. Rizzo University of Milano-Bicocca (Italy)</i>
12:00 - 12:45	"The magmatic-hydrothermal system of Vulcano island and possible relationships with phreatic eruptions" <i>P. Fulignati University of Pisa (Italy)</i>
12:45 - 13:30	"Trace elements at the crossroad between microbial diversity and biogeochemistry" <i>D. Giovannelli University of Naples Federico II (Italy)</i>
13:30 - 14:30	<i>Light lunch</i>
14:30 - 17:00	Round table and discussion
17:00 - 17:15	<i>Recap and Concluding remark</i>
